

TRINITY CATHOLIC SCHOOL

TIMING OF THE SCHOOL DAY PROPOSAL

REASONS FOR THE CHANGES

1. Because of the way our site is designed, there are very few large areas in the school where students can congregate, especially in bad weather. This means that they often find lunchtimes quite monotonous. Our consultation with students and staff shows that they would prefer a shorter lunch hour.
2. We introduced electronic registration last September. Students are now registered at the start of every lesson. It is important that students meet their tutor every morning in order to prepare properly for the day ahead, but we do not need an additional registration in the afternoon.
3. Finishing a little earlier would provide more time for staff to meet, plan their lessons and hold additional after school activities.
4. In winter, students will be setting off for home before dark.
5. This brings us into line with all other central area schools.
